

# ANNAN JUNIOR

## Software Developer

### My Self

Six years of experience facilitating cutting-edge engineering solutions with a wide range of e-commerce application and technology skills. Proven ability to leverage full-stack expertise to build interactive and user-centered website designs to scale. Extensive expertise in large system architecture development and administration, as well as network design and configuration.

### Experience

#### Computer Science Dept. UG

Software Developer

Sept 2021 – Present

While in the university, I have worked for a lot of companies including internship with my lecturer at the Computer Science Department. In the internship, we used C++ and Python codes to test some wireless sensor networks. I have also worked for organizations outside the university. During those times, I wasn't employed as a permanent worker; I only created software solutions for them. Some of them included web applications, mobile applications and desktop applications. I did those, especially web applications for many clients.

#### Westminster Consult - Shama, Western Gh

Software Developer

Sept 2018 – 2019

This happened to be a new microfinance business that was using books to keep its records. I was employed to create a database application for them in Ms Access

#### SHAccu Cooperative Credit Union, Shama, Western Gh

Sales Executive

Dec 2016 – 2018

I was initially employed after high school as mobile banker then got promoted as a Sales Executive Officer. During the period, I was monitoring some of the mobile bankers and also writing Ms Access Database programs to complete tasks.
